EXPERIENCE

ELVDRIVE — Web Developer   May 2023 - July 2023

At ELVDRIVE, my web development internship focused on HTML, CSS, React JS, and JavaScript. I gained practical experience through real-world projects, improving my front-end skills and problem-solving abilities.

PROJECTS

- **Devog — a full-stack blogs web-app with WYSIWYG text editor**
  This blogging web-app leverages primarily Next.js, Tailwind CSS, MongoDB and more technologies. This robust platform offers full functionality for reading and creating blogs, featuring a user-friendly WYSIWYG text editor.

- **VBSPU Redesigned— redesigned the interface of my university's website**
  In this project I revamped the frontend of my university's website using Next.js. The redesign enhances user experience and accessibility while maintaining the site's functionality and informative content.
